In re Matter of	)	MM DOCKET NO. <u>93-295</u>
	)	
Amendment of Section 73.202(b)	)	RM-8362
Table of Allotments,	)	
FM Broadcast Stations.	)	
(San Clemente, California)	)	

REQUEST OF MT. WILSON FM BROADCASTERS, INC.  
TO FILE LATE REPLY COMMENTS

Mt. Wilson FM Broadcasters, Inc. ("Mt. Wilson") by its attorneys, respectfully requests the Commission to accept the late-filed Reply Comments which are submitted simultaneously herewith. In support of the Request, Mt. Wilson states:

1. Although the Comments filed by Mt. Wilson in this proceeding establish beyond any doubt that the Comments filed by Steven R. Bartholomew must be rejected, and that the Commission's direction to delete Channel 285A at San Clemente, California from the Table of Allocations must be implemented, the Bartholomew Comment raises the spectre of the very kind of needlessly protracted and expensive proceeding which resulted in the Commission's current directive. Bartholomew asserts that transmitter sites are available from which an adequate service for San Clemente could be provided.

2. The Bartholomew assertion is based on his understanding of a discussion with Steven Conroy of Southern

California Edison, the lessee of the site in question. Because the ten-year proceeding which has brought the Commission to the present point was based on a similarly equivocal and ultimately incorrect statement about the availability of a site on Camp Pendleton, see On The Beach Broadcasting, 8 FCC Rcd. 3123, 3124 (1993), Mt. Wilson felt impelled to check this matter with representatives of Southern California Edison. This effort has consumed additional time in order that appropriate officers of the company could be contacted.

3. The Mt. Wilson reply Comments submitted herewith set forth the result of that inquiry. Moreover, the recitation of the Southern California Edison position set forth in the Reply Comments has been reviewed and approved by a member of its legal staff.

Respectfully submitted,

MT. WILSON FM BROADCASTERS, INC.
